EXECUTIVE SUMMARY

This document contributes a brief Company Profile of TRDV Engineering

The purpose of the document is to introduce the Company and the services and specialization it offers to perspective clients.

As Consulting Engineering Professionals and Turnkey Solutions Specialists we are often entrusted with the task of spending the money of our clients wisely. In this regard we are also often required to research and offer advice and information needed by our clients to make decisions on whether or not to invest in particular projects. This we do with due diligence in order to achieve excellence in making available to our clients, well researched, principled centred solutions that can be used to make well informed decisions.

OUR MISSION

There is a strong belief within TRDV that the growth and profitability of our service practice is driven by the loyalty of our clients. This loyalty in turn is driven by our client's satisfaction with the service we render. As such we caution ourselves never to get into a comfort zone with any of our clients since we know that the decision to either continue or discontinue making use of our service is taken anew every day. From this viewpoint follows our Mission Statement.

To provide Professional Engineering and Project Management services to the industry in a cost Affective, Sustainable and Reliable manner.
To focus on the quality of service delivery by exercising the Degree, Skill, diligence and foresight which Is expected from our Profession.

OUR VISION

Our vision is to provide service of great quality and value, by accepting the challenges of an ever – challenging environment and enhancing the contribution of SMME's in our economic development.

The foundation of our business is our clients and employees, it is important for TRDV to build and strengthen sustainable relationships.

The company is prepared to dedicate itself to other needs of its clients and society. Our main objective is to deliver the best performance and to perform all tasks designated to us through professionalism and confidentiality.

WE GO BEYOND

We have carefully crafted and perfected all of our services, guided by our commitment to our clients' success and drive to continually leverage the best practices, equipment, and technology available.
